Now could be a great time to think about...

How are things going and where are you headed?

You may have some goals for right now and some ideas for the future. That's where having a "life plan" comes in. A life plan can help you achieve your goals and plan for the future. Thinking ahead may help you stay safe and healthy. It will help you make healthy decisions regarding physical activity, healthy eating, sleep, relationships, sex and other areas of your life.

Use this booklet to think about your goals and ultimately, your own life plan. The information and facts in this booklet can help you to stay true to yourself and take the best care possible of your health, and yourself.

Add today's date and signature below. Then add your own goals on each page and your life plan on the My Focus – My Plan page. Put your plan into action and take time to review it regularly as things in your life may change or you may see them differently at a later date. Make changes and revisions to your plan as needed.

How often do I brush and floss my teeth? _____

My Plan

Example: *I will eat 6-8 servings of veggies and fruits a day. I will consider the health effects of my behaviours.*

My Life – My Mental Health

What helps me relax and feel good – music, time with friends, a good movie, ...?

How many hours of sleep do I get most nights? _____

Sleep helps to fuel the brain and the body. Teens need more sleep because their bodies and minds are growing quickly. Scientific research shows that many teens do not get enough sleep. To be at their best, teens need between 9 and 10 hours of sleep every day.

How would being a teen parent affect my other goals? _____

What is my plan to prevent an unplanned pregnancy (if appropriate)? What kind of protection from Sexually Transmitted Infections (STIs) and unplanned pregnancy (if appropriate,) do I choose?

If I choose not to talk to anyone, I can visit www.sexualityandu.ca for trust worthy information

STIs are spread from person to person by having sex or intimate contact. They are common among teens. STIs are a serious health problem. Some STIs can cause permanent damage such as infertility, and even death (in the case of HIV/AIDS). Some STIs don't have symptoms.

The only 100% effective way to not get pregnant or get your partner pregnant and avoid a STI is to not have sex.

Who will I talk to (e.g., doctor, nurse, counsellor, parent) if I have questions about my sexual health?

All women who could become pregnant need a multi-vitamin with folic acid every day. This can lower the chances of having a baby with serious birth defects (e.g., spina bifida).

My Plan

Example: *I will talk to a trusted adult (e.g., doctor, nurse, counsellor, parent) and my partner about protection from STIs and unplanned pregnancy (if appropriate).*

The realities of a teen pregnancy

Many relationships end during pregnancy or after the baby is born.

Many young parents and children live in poverty.

Babies are expensive. Costs can add up to over \$10,000 in the first year alone.

Drinking any amount of alcohol during pregnancy, even before a pregnancy test is positive, can have serious effects on a fetus, such as brain damage and physical anomalies. Fetal Alcohol Spectrum Disorder (FASD) is preventable.

Thoughts of a teen parent:

Becoming a parent would force me to grow up quickly.

My Life – My Family Health History

Your family history can affect your future health. Find out if any health concerns exist in your family and who has them. For example, it is important to be aware of diabetes, asthma, heart disease, mental illness, and babies born prematurely or with birth defects. These health concerns could affect you and any children you might have some day.

My Plan

Example: I will ask my parents and relatives what kind of health concerns run in my family.

My Life – My Future

What are my interests? What am I passionate about? What motivates me?

What do I want to be doing next year? _____

Examples: *Getting my driver's licence? Being part of a club, team or group? Graduating from high school? Volunteering?*

What do I want to be doing in the next five years?

What level of education do I want to achieve? High school, apprenticeship, college, university?
What level of education do I need so that I can be doing what I want to in five years?

What kind of work do I want to be doing?

My Plan

Example: *I will talk to someone I trust (e.g., counsellor, parent, teacher, friend) to help me achieve my education goals. I will put more effort into school.*

My Focus – My Plan

I have thought about what's right for me. I will choose things I want to focus on.

Based on the 6 topics:

- My health
- My mental health
- My relationships
- My reproductive health
- My family health history
- My future

I plan to:

This plan will help me:

I will make a promise to myself to stay healthy. This will make me feel good about myself. It will help me keep the options for my future open. It will also help me have the best chance of having a healthy family, if this is my choice, when the time is right.
